Education

Expected 2025 THAYER SCHOOL OF ENGINEERING AT DARTMOUTH COLLEGE

Ph.D. Sensor systems engineering

Thesis: Tools for observing snow and sea ice in a changing Arctic Ocean.

Advised by Professors Donald Perovich and Christopher Polashenski

2018 DARTMOUTH COLLEGE

B.A. with high honors, Earth and Computer Science

Honors thesis: Quantifying volumetric change of Athabasca Glacier in the 20th & 21st centuries.

Advised by Professor Robert Hawley

Research Experience

2019–present **Graduate research assistant (NDSEG Fellow)**, Thayer School of Engineering, Hanover, NH
Led field component (11-months) of a multi-institute project participating on the central Arctic MOSAiC expedition. Analyzed sea ice mass balance data and conducted modeling experiments to determine that snow is the largest control on modern winter sea ice growth in the Arctic. Examined Arctic ice–ocean boundary layer, finding that stratified meltwater can significantly reduce basal ice melt. Designed ultra-low-power autonomous network for measuring snow on sea ice.

2016–2019 **Undergraduate research assistant**, Dept. of Earth Sciences, Dartmouth College, Hanover, NH
Led four field experiments using radio echo sounding (RES) to measure the volume of Athabasca Glacier, in Alberta, Canada. Built and repaired RES instrumentation. Compared contemporary glacier volume to historical volume estimates and used Monte-Carlo methods to determine the volume trend and estimate the disappearance date of the glacier.

2017–2018 **Volunteer research assistant**, Volunteers in Medicine of the Olympics, Port Angeles, WA
Assisted physicians and epidemiologists in determining the efficacy of local hepatitis treatment clinics through patient and stakeholder interviews and survey analysis.

Field Experience

- 2023 **Field scientist**, ArcWatch 1 Expedition, Central Arctic Ocean (60 days at sea)
Deployed autonomous ice mass balance buoys and snow observation network. Conducted snow and sea ice physical characterization surveys at 11 ice stations. Assisted with underwater remotely-operated-vehicle operations for collecting mass balance, optical, and upper ocean measurements.
- 2023 **Field scientist**, Deadhorse/Prudhoe Bay, AK, USA
On a team of three (two scientists + pilot), deployed four ice mass balance buoys in the Beaufort Gyre from a fixed-wing, single-engine airplane over two days in early March.
- 2022 **Field scientist**, Utqiagvik, AK, USA
Seven day field campaign in November 2022 studying thin sea ice thermomechanical processes in Elson Lagoon and testing prototype snow sensing instrumentation. Mentored a junior graduate student in preparing for and executing a field campaign in challenging early-season conditions.
- 2019–2020 **Field scientist**, MOSAiC Expedition, Central Arctic Ocean (305 days at sea)
Lead field scientist for our project on the Multidisciplinary drifting Observatory for the Study of Arctic Climate (MOSAiC) for eleven months (Legs 1, 2, and 4). Responsible for designing and conducting ice mass balance, snow surface scanning, and upper ocean surveys. Installed and maintained a network of ice dynamics and mass balance instrumentation. Aided in installing, maintaining, and recovering expedition infrastructure and equipment.
- 2017–2019 **Volunteer field technician**, Olympic National Park, National Park Service, Port Angeles, WA
Seasonal field technician with the National Park Service. Helped plan and conduct multiple 3-7 day backcountry field surveys in the Olympic National Park wilderness, including alpine lake and snow surveys as well as intertidal ecology surveys.
- 2016–2019 **Senior thesis research**, Athabasca Glacier, Jasper NP, AB, Canada
Designed and conducted annual radio echo sounding (RES) surveys of Athabasca Glacier to determine the volume and volume trends of the lower Athabasca Glacier.

Teaching Experience

- 2023 **FYREE mentor**
Mentored undergraduate engineering students in an independent research project through the FYREE (First Year Research Experience in Engineering) program.
- Summer 2022 **Graduate Teaching Fellow**, Joint Science Education Project (JSEP)
Designed and delivered a week-long Arctic science education curriculum to a cohort of Greenlandic, Faroese, Danish, and American high school students. Facilitated an independent research project conducted by a small group of students focused on understanding the physical processes influencing ice sheet surface melt.
- Winter 2020 **Private Tutor**, English as a Second Language (TutorOut Inc.)
Taught curriculum-based English as a Second Language (ESL) course to elementary-aged Chinese students.
- Fall 2019 **Teaching Assistant**, Glaciology field course (Dept. of Earth Sciences, Dartmouth College)
Assisted in teaching geophysical survey theory/techniques, glacier travel, geological mapping to undergraduate students.
- Fall 2018 **Undergraduate Teaching Assistant**, Glaciology field course (Dept. of Earth Sciences, Dartmouth College)
Assisted in teaching geophysical survey theory/techniques, glacier travel to junior undergraduate

students.

- 2016–2018 **Climbing Instructor**, Intermediate and Advanced Rock Climbing (Outdoor Programs Office, Dartmouth College)
Taught sport and traditional technical rock climbing and self rescue.
- Fall 2017 **Undergraduate Teaching Assistant**, Earth Sciences I: How the Earth Works (Dept. of Earth Sciences, Dartmouth College)
Assisted in lab lectures, led field exercises covering the foundations of geology, hydrology, and environmental science for undergraduate students.

Community Engagement/Community Service

- 2024-present **Volunteer bike mechanic**, Bikes Not Bombs community bike shop (Boston, MA)
Processed donated bicycles for refurbishment and use in community bike school and international bike program to improve access to affordable, sustainable transportation for underprivileged community members.
- 2023 **Volunteer bike mechanic**, Portland Gear Hub community bike shop (Portland, ME)
Processed donated bicycles for refurbishment and use in community bike school to improve access to affordable, sustainable transportation for underprivileged community members.
- 2023 **Invited speaker**, School of Ice, US Ice Drilling Program
Delivered presentation on the fundamentals of sea ice mass balance measurements and a live demonstration of the Seasonal Ice Mass Balance (SIMB₃) buoy.
- 2022-present **Gleaning volunteer**, Cumberland County Food Security Council (Portland, ME)
Gleaned excess produce from local farms to distribute at no cost to community members experiencing food insecurity.
- 2021 **Invited panelist**, Florida National Ocean Science Bowl career panel
- 2019 Field demonstrations for APECS MOSAiC School
Demonstrated fundamentals of autonomous buoy deployment for graduate students in the APECS MOSAiC School.
- 2017–2018 **Patient care advocate**, Volunteers in Medicine of the Olympics (VIMO; Port Angeles, WA)
Maintained long-term relationships with hepatitis patients to ensure that they remained up-to-date and empowered on care appointments, treatments and medication, and insurance processing. Responded to patient inquiries and acted as a liaison between patients, medical facilities, and VIMO.

Grants, Honours & Awards

- 2024 Most outstanding presentation, *Research in progress seminar, Thayer School of Engineering, Dartmouth College*.
- 2023 Most outstanding presentation, *Research in progress seminar, Thayer School of Engineering, Dartmouth College*.
- 2023 MOSAiC conference early career researcher award (\$1,400), *MOSAiC Consortium*
- 2022 National Defense Science and Engineering Graduate Fellowship (NDSEG) (\$306,000), *Office of Naval Research, Department of Defense*
- 2021–2022 Joint Science Education Project (JSEP) Graduate Fellowship (\$6,000), *NSF/JSEP, Dickey Center for International Understanding, Dartmouth College*
- 2021 MOSAiC conference early career researcher award (\$500), *MOSAiC Consortium*

2019	George Austin Colligan Fellow, <i>Thayer School of Engineering, Dartmouth College</i>
2018	High Honors, <i>Department of Earth Science, Dartmouth College</i>
2018	Sigma Xi Nominee, <i>Sigma Xi Scientific Research Honor Society, Dartmouth College Chapter</i>
2017	Senior Honors Thesis Grant (\$2,500), <i>Department of Earth Sciences, Dartmouth College</i>
2016	Citation for Academic Excellence, <i>Professor Christina Seely, Department of Studio Arts, Dartmouth College</i>
2016	James O. Freedman Presidential Scholar research grant (\$2,000), <i>Dartmouth College Undergraduate Advising and Research</i>
2014, 2015	Academic honors, <i>Dartmouth College</i>
2014	Invited member of the E.E. Just Society for underrepresented minority students in STEM, <i>Dartmouth College</i>

Certifications, Trainings & Short Courses

2023	Polar Firearms Training and Polar Bear Safety (certification), <i>ICS of Colorado</i>
2020	Polar Field Science and Safety (workshop), Bremerhaven, Germany
2019	Helicopter Underwater Egress and STASS (certification)
2019	Polar Field Science and Safety (workshop), Tromsø, Norway
2019	Polar Firearms Training and Polar Bear Safety (certification), <i>ICS of Colorado</i>
2019	Fire Fighting and Fire Prevention at Sea (certification), <i>Connecticut Fire Academy</i>
2019-2024	Standards of Training, Certification, and Watchkeeping for Seafarers (STCW; certification), <i>New England Maritime Institute</i>
2019	Polar Field Science and Safety (workshop), Utqiagvik, AK, USA
2017-2021	Wilderness Emergency Medical Technician (W-EMT; certification), <i>NREMT</i>
2016-2018	Wilderness First Responder (certification), <i>SOLO School of Wilderness Medicine</i>
